PROFESSIONAL SUMMARY

BS Information Technology graduate with hands-on experience in web-based system development, IT support, and network administration within an academic environment. Skilled in building and maintaining school information systems using PHP/Laravel and MySQL, deploying systems on Hostinger, managing campus-wide network connectivity, and resolving hardware, software, and network issues to minimize downtime. Independently developing CaviteNest, a property rental and booking platform, using NestJS, TypeScript, and MongoDB, deployed on Vercel. Experienced in providing technical support for live events and streaming activities, with additional background in computer repair and system maintenance.

WORK EXPERIENCE

Western Colleges Inc.

October 2025 – June 2026

Management Information Systems (MIS) / IT Admin Staff (PEAC coordinator)

Naic, Cavite

- Coordinated PEAC compliance documentation and developed and maintained the school's Enrollment System and other information systems using web-based platforms, keeping the institution compliant with government program requirements while providing a stable, centralized enrollment system.
- Built, configured, and maintained desktop computers, IT equipment, and network connectivity across faculty and administrative offices, diagnosing and resolving hardware, software, printer, and network issues to minimize downtime.
- Provided technical support during school events as Sound Engineer and managed live streaming for programs, seminars, and online activities, ensuring uninterrupted audio and broadcast coverage.

Western Colleges Inc.

February 2025 to June 2025

Management Information Systems (MIS) / IT - On-the-Job Training

Naic, Cavite

- Assisted in setting up, repairing, and reformatting desktop computers, including hardware assembly and installation of operating systems and essential applications, to restore functional units for academic and administrative use.
- Troubleshoot issues with computers, printers, and network devices, and configured MikroTik routers with basic bandwidth management to improve network stability.
- Managed computer lab equipment, including LAN cable organization and RJ45 crimping, to maintain a functional and well-organized laboratory environment.

Freelance Computer Technician

2023 - Present

- Diagnose and repair hardware and software issues for clients using diagnostic tools, restoring computers to optimal working condition.
- Perform system formatting and install operating systems, applications, and drivers to optimize computer performance and reliability.
- Provide troubleshooting and technical support to clients, ensuring smooth and consistent device operation.

PROJECTS

Western Colleges, Inc. — Enrollment System

2026

Frontend and Backend Developer

<https://wci-homeofthechampion.cloud/>

- Developed and maintained a web-based enrollment management system for Western Colleges, Inc. using PHP/Laravel and MySQL, handling both frontend and backend development.
- Deployed and hosted the system on Hostinger, ensuring consistent uptime and accessibility for students and staff.
- Implemented system enhancements, bug fixes, and maintenance updates to improve performance and reliability over time.

- Provided technical support to users and administrators, resolving issues and ensuring system availability during peak enrollment periods.

CaviteNest
Lead Full Stack Developer

2026
<https://cavitenest.com/>

- Built CaviteNest, property rental and booking platform, as a 4-member capstone project in 2024 using NestJS, TypeScript, and MongoDB.
- Took over as the project's sole developer in 2026, leading the continued development and enhancement of the platform's backend architecture and database structure.
- Deployed and maintained the application on Vercel, ensuring smooth, scalable hosting for live use.
- Improved core platform features independently, expanding beyond the original academic scope into a fully functional rental booking system.

EDUCATION

Cavite State University - Cavite City Campus
Bachelor of Science in Information Technology — Magna Cum Laude

2021 - 2025
Cavite City

CERTIFICATIONS & SKILLS

- **Skills:** Multi-tasking, time management, and ability to work efficiently under pressure; Microsoft Office Suite: Word, PowerPoint, Excel, Access; Video Editing: DaVinci Resolve, CapCut, Kinemaster, Adobe Premi; Technical Skills: Web Development: HTML, CSS, JavaScript, React.js, Next.js, NestJS, PHP/Laravel; Database Management: MySQL, MongoDB; Deployment & Hosting: Vercel, Hostinger; Network Administration:
- **Certifications:** Certificate of Participation for the Technical Webinar entitled "AI and Ethics in Electronics Engineering: Balancing Technical Efficiency with Ethical Responsibility and Accountability"; Virtual Assistant Online Training: Data Entry, Graphics Design, Facebook Advertising, Social Media Management; National Certificate II in Driving (TESDA)
